-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Applicant's arguments with respect to claims 32-48 have been considered but are moot in view of the new ground(s) of rejection.

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 32, 33, 34, and 39 are rejected under 35 U.S.C. 102(e) as being anticipated by Lei, et al. (US 6,552,209B1).

Lei, et al disclose transition metal metallorganic complex compounds of the formula shown in col. 1, lines 50-65 which are precursors for deposition. In the formula, the metal may be tantalum, among others(col. 1,lines 64-67). The formula reads on the formula given in claim 32, formula I.

Claim Rejections - 35 USC § 103

Claims 35-38, 40-48 are rejected under 35 U.S.C. 103(a) as being unpatentable over Lei, et al as applied to claim 32 above.

Lei et al does not teach the recited compounds explicitly.

Art Unit: 2825

Although Lei et al does not teach the recited compounds explicitly, Lei et al renders the recited compounds obvious because Lei et al disclose that other transition metals may be used other than Ta(col. 3,lines 25-35). In addition, Lei et al discloses that the groups may be silylalkyl, so that the compounds in claims 38 and 40 would have been obvious to one of ordinary skill in the art in view of Lei et al(col. 3, lines 50-62). In addition, one of the reagents is a compound which reads on formula II in claim 47(col. 3, lines 14-18). Therefore, it would have been obvious to one of ordinary skill in the art at the time of the invention to have developed the formulas in the rejected claims in view of the disclosure made by Lei et al because these can be derived from the teachings of Lei et al as pointed out above.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
